

WE CREATE
WARM
ATMOSPHERE

All of the projects created by us meet the needs of our customers. Functionality, high quality and reasonable price are the features that distinguish our inserts on the market. Attention to aesthetics and style enable their users to arbitrarily arrange interiors. Imagination is the only barrier, but - as evidenced by our many years of experience - customers have unlimited resources of it.

We give warmth -
this is the most important task of our fireplaces.

Sitting in the glow of the fireplace you will understand that we are doing something more ...

We create a special warm, welcoming atmosphere ...

Marek Bal

GET TO KNOW OUR HISTORY

Our company has been existing on the Polish market since 1998, when we started to produce fireplace grates.

Today, we are a well-known and respected manufacturer of fireplaces, grills and fireplace accessories.

Due to our dynamic development, quality and durability of our products, we are known at the forefront of fireplace manufacturers in Europe.

Since our company's inception, we are guided by the idea of products being „Good because they are Polish” and we are different from the competition due to our concern to provide customers with safe and effective products.

We make sure that our products meet the highest standards and comply with the most stringent standards.

Our experienced sales staff provide reliable quality of services, they have wide technical knowledge of products, installation and logistics.

KRATKI 20 years

MODELS OF
PRODUCTS

WE TAKE CARE OF EVERY DETAIL

All our products are manufactured with the greatest care and we take care of their every detail. All the details that are of great importance in the appearance of the final product are important to us.

WE ARE RESOURCEFUL

When designing new models, we make each of our products respond to the needs of our customers. We examine the demand, we look for the most appropriate design and modern technology, thanks to which our products are unique.

WE ARE PROFESSIONAL ADVISERS

Professional financial advisers provide you with all the necessary information at the choice of the most appropriate fireplace, it's trim and additional equipment.

WE HAVE MODERN PRODUCTION TECHNOLOGY

Advanced and regularly expanded and updated machinery equipped with, among other things, laser cutting machines:

- TruLaser 5030 fiber (L41) - 3 kW,
- TruLaser 5030 fiber (L56) - 5 kW
- TruLaser 5030 fiber (L68) - 5 kW,
- Punch: TruMatic 3000 fiber - 3 kW
- CNC benders

and robot welding stations. They provide a partial automation of the production process and improve its efficiency.

WE PROVIDE CONTINUOUS QUALITY CONTROL

Continuous efforts in direct contact with the end customer and investments in production facilities enabled us to gain the leading position in the industry. The high quality of our products and affordable prices quickly won the trust and favor of customers; and our continuously expanded offer drew the attention of future trading partners. We strive to built relationships with them, as well as with our employees, on the basis of the values of close family ties. When executing our business objectives, we do not forget about mutual respect and cooperation partnership standards.

WE PROVIDE CONTINUOUS QUALITY CONTROL

Our designers take care primarily of user safety, high efficiency and low emissions of inserts. Nevertheless, modern design and functionality of the manufactured devices are also important to us.

We have a modern laboratory which complies with PN-EN 13240, „Solid fuel space heaters”. We conduct preliminary tests before the final tests in a certified laboratory.

Fireplace inserts are tested for: efficiency, power, exhaust temperature and emissions of oxides.

WHY WE?

The way from a nearly garage company to a well-known and respected manufacturer was long and not always easy.

However, it has given us great satisfaction and we have learned a lot. Today, the offer of Kratki.pl is regularly presented at major industry events and trade fairs. We have won many prestigious awards and distinctions.

By understanding the industry from scratch, focusing on customer needs and rapid response to market changes, we can boast of being one of Europe's leading manufacturers of fireplaces and the products of Kratki.pl are available in nearly 60 countries around the world.
